International Racetrack Safety™  
**Trackcare Fireproof Clothing**

## Hand and Arm Protection

Fully kitted out with Trackcare's own Fireproof Clothing, you just know you're not going to get your fingers burned or anything else for that matter !

## Full Body Protection

Pit lane is a potentially dangerous place and no matter what precautions are taken, accidents can still happen. Probably the most feared incident is a fire. With Trackcare's revolutionary Fireproof Clothing, you can be sure your safety is not compromised.

## Head to Toe Protection

All these products set standards which none of the rival manufacturers can come close to.

In a burn test with a similar thickness of material our closest rival lasted for 9 seconds, Our Trackcare product lasted for 123 seconds.

If you take your fire protection seriously there is only one product to choose.
